No meeting of the Council will be held. The meeting has not been called off, but it is reasonably certain that a quorum will fail to appear.

MR. AND MRS. P. R. WEIMER  
HAVE CLOSE CALL IN RUNAWAY.

Horse Frightens at Automobile on National Pike and Plunges Over Embankment.

## THE MACHINE DID NOT TARRY

Mr. Weimer Sustained Sprained Shoulder While His Wife Was Painfully Scratched and Bruised—Work's Automobile to the Rescue.

Mr. and Mrs. P. R. Weimer of town had a thrilling runaway experience near Uniontown last evening, one which might have resulted in serious injury if not death to both of them but for the timely presence of a stake alongside the National Pike which stopped the downward tumble of the horse and rig in which they were driving.

The two had been visiting Mrs. Weimer's parents at Farmington and began the return along toward Uniontown, not far from the Turkey's Nest, an automobile came up from behind and frightened the horse the Weimers were driving. The animal kicked viciously and got its hind legs over the seats. It then veered to one side of the road and plunged over the embankment, dragging the buggy and its occupants after it.

The buggy struck the post beside the road, after tumbling down about six feet. This threw Mrs. Weimer out while Mr. Weimer jumped from the vehicle. The horse broke loose and rolled on down the hill.

The chauffeur of the automobile stopped long enough to enquire if the occupants of the buggy had been hurt and then drove on, leaving them alone in the darkness. Mr. Weimer saw the number of the machine and learned it was 3184. Mrs. Weimer sustained a few painful scratches, while her husband had his shoulder sprained.

John Work of Connellsville happened along in his car a few minutes later and took Mrs. Weimer to Uniontown returning with assistance. The horse was driven into Uniontown and left at the livery stable where it had been hired. Mr. and Mrs. Weimer then came to Connellsville by trolley.

HOBBS TRIED TO  
SHOOT UP TOWN.

Then Police Landed Him In Bastille and It Cost Twenty Dollars.

## PAL WAS ALSO ABOUT TO SHOOT

Third Member of B. & O. Railroad Boarding House Gets Nasty at the Bastille and Does 72 Hours for It—Lots of Excitement

Three employees of the Baltimore & Ohio railroad got in bad with the police Saturday afternoon because one of their number attempted the use of a pair of guns in this city and refused community. J. W. Hobbs pulled his guns on Water street and began firing and it was just at that time that the officers appeared. After some persuasion Hobbs was finally landed in the bastille. Later O. G. Sellers was arrested for flourishing a gun and threatening to shoot, while a third, George Hubertson of Cumberland, became disorderly after bringing supper into one of the other and was locked up.

Hobbs paid a fine of \$20, Sellers produced \$10 and Hubertson took 72 hours. The police including Chief Rottler and Officers Rull and Sullivan had a lively time while it lasted. Hobbs was the only one who fired. He tried to empty a pair of guns on Water street firing each alternately until the entire load had been discharged.

It is reported that the boarding house in the Hyndman building is sort of an arsenal, various weapons being stored there. Too much indulgence in liquor caused Hobbs to have a desire to "shoot up" the town. Sellers was landed before he had an opportunity to carry his intentions into effect, while Hubertson was just naturally up at the police station and was landed in lock.

The men had their hearing before Burgess Evans yesterday morning at that time five drunks were given the usual sentence. McCapin paid a fine of \$5 for posting bills without a license.

Thousands of poverty stricken families are affected. The bill is a direct blow at the poorer classes. It is reported that King Alfonso today expelled Premier Maura for foreign execution. The Revolutionary leaders are elated over the demonstrations yesterday. They predict an early outbreak.

OPEN AIR PRAISE  
OF CHRISTIANS.

Largest Communion Service World Has Ever Known at Pittsburgh.

## BASEBALL FIELD IS THE SCENE

Thousands Upon Thousands Receive the Sacrament in Grand Service and Sing Hymns—It Was Entirely Conducted by Signals.

PITTSBURGH, Oct. 18.—Nearer My God to Thee, swelling up from 25,000 voices on Forbes Field yesterday, floated over the hills of Schenley park and rolled against the gray building of Carnegie Institute where they were echoed over the most populous section of Pittsburgh. Twenty-five thousand voices lifted up in religious fervor where but little more than a week ago 10,000 more were cheering on to victory the favorite contestants in the national game. This marked the most remarkable meeting of religious folk that has ever been recorded.

Twenty-five thousand persons gathered in an open field, to partake of the communion of the church and hold under the blue dome of heaven that service of the church that is usually held within the sanctuary.

The entire service was conducted by Dr. Tharp who gave his directions to the congregation elders and deacons, with a signal bell, and when with a flourish he announced the opening of the great congregation arose. W. B. M. Hackman of Indianapolis mounted several wooden boxes and directed the singing. Eight chorists stepped forward and playing in unison, furnished the only music for the service.

Upon the signal being given by Dr. Tharp the elders stepped to the tables removed the coverings and when this had been completed prayer was recited in concert. The bread was broken by the elders and handed to the deacons who filed through the aisles of their respective sections one by one. Starting from the lower rows of seats in each tier they worked up to the back rows, where they awaited the next signal upon which they marched back to the communion table. Here the deacons were served by the elders and by the same method the wine was passed. During the communion there was absolute silence.

An offering was taken by the same method. This was for the fund for ministerial relief. When it was announced Dr. Tharp, with a megaphone enjoined the congregation to give, not pennies and nickels, but dollars and ten dollars. Let us make it \$10,000 today for these underpaid ministers of God, he said.

After the services it took two hours and a half to count the money. There was much currency and not a small number of bills, the whole reaching \$2,925.52.

A Foreign Couple Eager to Wed  
Seek License Off Burgess Evans.

An application for a marriage license was made to Burgess Evans this morning when Steve Kopeha, a clean cut looking Slav from Star Junction, ushered in blushing Annie Rush also a Slav and requested that the necessary papers be made out. Burgess Evans interviewed the couple and then turned them over to Chief Rottler who took them before Squire Frank Miller to have the papers made out.

The two were anxious to get married at once but learned that it would take some time to get the license back from Uniontown. Although somewhat disappointed, they look it all as a matter of course.

Steve is 24 years old and works in the mines at Star Junction. Annie is 21 although she does not look it and has been working in Pittsburgh. The wedding will take place in a day or two.

## WANT SITE FOR TACK FACTORY.

Pittsburg Firm Want to Open Negotiations for Old Automobile Works at South Connellsville.

Pittsburg parties are negotiating with Owen Murphy for the purchase of the old automobile works at South Connellsville with a view to turning it into a tack factory. The offer for the property, however, does not appeal strongly to Mr. Murphy, as those interested want him to invest \$5,000 in the business. Murphy says that he does not know anything about the business, although the promoters declare that there is 50 per cent in it. Dimensions of the building and other data have been sent those inquiring. They state that owing to being forced out of their present location in Pittsburg it has been decided to move the factory and it is believed that the old buildings of the automobile works will be a suitable location.

Mr. Murphy has a number of inquiries about the property and it is not unlikely that he will shortly locate an industry there that will be a paying and a permanent one.

SCARCITY OF PORK  
CAUSED UNPLEASANTNESS

At a South Pittsburg Street Boarding House Which Ended in Police Court

This morning in police court F. J. Richard was arrested for being drunk and disorderly at his boarding house in South Pittsburg street. He denied the allegation declaring that he was merely hunting a new boarding house for himself and three others, which aroused the ire of Mrs. E. A. Higgins, who conducted the establishment. Scarcity of pork at the evening meal last night is said to have caused the unpleasantness.

Richard said he had a drink or two a reward for scrubbing the kitchen floor and washing the dinner dishes. He denied being drunk. He was held for further investigation.

### MINE COLLAPSES.

Two Men Killed and Two Others Severely Injured.

The other day the newspapers recorded the collapse of the roof of a coal mine, near Connellsville, with the fatal injury of two men and two others severely hurt. It is such incidents as this that show us the uncertainty of life and the necessity of making what provision we can for those dependent upon us while we are alive. Money cannot compensate for the loss of a husband and father, but it can, at least, save the widow and children from poverty. You may not be able to leave your family independent, but you can leave them something if you open a savings account and deposit a small sum regularly. The First National Bank of Connellsville will be glad to have your account, no matter how small. You can begin it with \$1. Four per cent. interest.

### BEGINS PASTORATE

At the First M. E. Church in Connellsville.

Rev. A. J. Ashe has also taken charge at Allegheny and will move there this week. That makes a vacancy on the School Board in the First Ward.

### GAME VERY SCARCE THE SPORTSMEN REPORT

Phoebants Hard to Scare Up in the Mountains and Squirrel Not Plentiful.

Hunters have not been returning to town with any stories of great accomplishments so far this year. Indeed, the phoebants have, for the most part, been rather unfortunate in their pursuit of game. Several parties left town last week and hid themselves to the mountains, but returned, for the most part, with game bags empty.

John J. Buttermore of East Murphy was the most fortunate to return with the first bag. He was out for two days, in the vicinity of Ohiopyle, and bagged 10 squirrels. Other game, he reports, was scarce. The local limit is six squirrels a day. Mr. Buttermore landed six the first day he was out and could have bagged more.

George and James Munson and R. Bradford struck the trail towards Springfield township after phoebants, but were unfortunate in not encountering any game of this nature. They did not get a chance to try their prowess with the rifle. Anthony Brooksman, who also went in the same direction as far as Tule's Hollow, only to return empty handed. Others were as unfortunate.

Sicorelli and two companions, the names of whom are unknown to the officers, started down the road from the Jamison works early in the evening. On their way back a dispute arose and it developed into a vigorous fight. One of the men drew a revolver and fired three shots at Sicorelli. Two of them took effect, one striking the man above the left ear and the other in the neck. He died before medical aid reached him. The two companions of Sicorelli at once disappeared.

### DEATHS.

Mrs. Elizabeth Hall.

Mrs. Elizabeth Hall, aged 95 years, the oldest woman in the borough of Waynesburg, died Friday evening, after a few days' illness. Mrs. Hall had the distinction of being a member of a Sunday School class at Greensboro which gave a reception in Lafayette which he visited this season in 1824, and often told of how Lafayette placed his hand on each little girl's head in the line and how the incident was talked of many years afterward.

Mrs. Hall and her daughter, Mrs. D. L. Davis, moved from North Ward, Waynesburg, to South Richfield street, and in moving she contracted a slight cold. Last Wednesday she became suddenly worse and gradually sank until, death came. Mrs. Hall was of German descent. Her grandfather, Samuel Grove, came from Germany and settled near what is now Muscatown. The family were prominent in that section at that time and Mrs. Hall frequently told of the many attacks made in the early history of the country. Mrs. Hall was an aunt of E. G. Hall of Connellsville.

**Robert Moore.**  
Mrs. W. J. Adams of Eyanore street, yesterday morning received word of the sudden death of her father, Robert Moore, of Oil City. Death was due to heart trouble. Mr. Moore had been a resident of Oil City for fifty years being pioneer foreman for the Pennsylvania Railroad Company for the past 40 years. He had intended to pay a visit to his daughter, Mrs. Adams, this week, and the announcement of his death took place this afternoon.

Deceased is survived by five daughters, Mrs. W. J. Adams, Connellsville; Mrs. J. T. Gormley, Hazlewood; Mrs. Harvey Hilgrove, Pittsburgh; Mrs. M. T. Martin, Oil City, and Mrs. Harriet, at home, and four sons, Robert J. Tennessen, James, Oil City; Peter of Brownwood, N. Y., and Kieran of Buffalo, N. Y. His wife died seven years ago. Mr. and Mrs. Adams left yesterday morning for Oil City to attend the funeral which took place this afternoon.

Mrs. Margaret A. Todd, one of the most widely known residents of Brownsville, died yesterday morning at 8 o'clock at her late home on Front street, of tuberculosis. Mrs. Todd was 60 years old and was the widow of Ewing Todd, who died several years ago.

Deceased is survived by seven children: Mrs. Elizabeth Blake of Pittsburgh; William and Henry Todd of South Brownsville; Ewing Todd of Brownsville; Lucy and Cora Todd of Brownsville, and Samuel C. Todd of Charleroi.

## Ruberoid Roofing

The Modern Roofing Material.

A building covered with Ruberoid Roofing 17 years ago is still in excellent condition with no signs of wear or a leak. Nothing else should be required to convince anyone that Ruberoid is the practical roofing material of the present day.

Ruberoid Roofing is a combination of high grade waterproof acid and fire resisting ingredients. There is no rubber in Ruberoid, no tar, no paper, no asbestos. It is not an asphalt roofing. It is tasteless and odorless and can be used on a roof from which drinking water is conserved. Ruberoid is positively fire resisting. Hot coals thrown upon Ruberoid roofing will not set fire to it nor to the roofing boards beneath it. It is a non-conductor of heat, keeping the heat out in warm weather and retaining the heat within during the cold weather.

A hundred different good things may be said of Ruberoid Roofing and not a single fault can be found with it. No roofing has ever been made that will out wear it. Ask us to show you Ruberoid Roofing and let us tell you more of its merits.

## A MINING SCHOOL NEEDED IN CONNELLSVILLE.

The Young Men's Christian Association is one of the educational institutions of the town. Its night schools have done much good and its mining classes have been materially beneficial to both miners and operators. The managers of the Connelville Young Men's Christian Association announce that they will continue the night schools. We would suggest that they take up the matter of a mining class and a course of lectures on mining problems and practice.

Connellville needs a mining school and it should be a well-equipped institution of practical instruction. There is a demand for good mine and fire bosses in the Connelville region, and this is augmented by the requirements of other mining districts whose operators naturally turn to the Connelville region for such workers for the reason that the Connelville region has the just reputation of being always at the forefront of progress in mining practice. The very fact that a man has had his practical mining education in the Connelville region is always a recommendation.

The State has done much to protect the miner in his hazardous employment, but it has done little to educate him in his business. While it is not the duty of the State to teach every man his trade, it is an obligation of the State to protect the citizen in his person and property, and the protection to persons extends to hazardous employment. In so far as the State is able to extend that protection, as for example, it is a reasonable regulation of industrial operations, and by dictating the character of explosives used in various coal mines, and (2) by eliminating the dangers of unskilled and ignorant workmen by contributing to their practical education.

Pennsylvania appropriates millions of dollars to its public schools for the purpose of insuring an intelligent citizenship, which is the best guarantee

of good government. Large sums of money are also expended on a Department of Mines, on hospitals and in divers other ways for the protection, relief and advancement of those engaged in mining; but aside from the limited knowledge which filters inadequately and tardily from the reports of the mining department the State contributes nothing to the education of that large class of persons employed in its mines.

The State should encourage the establishment of local mining classes and schools by providing through the State Department of Mines competent lecturers for the instruction of the miner in the rudiments and the dangers of his occupation, and of carrying him higher up in technical instruction if he has ambition to become something more than a mere miner.

## THE HANDBILL NUISANCE AND ITS REGULATION.

The handbill nuisance is arousing general complaint. The Washington Reporter says concerning it:

The handbill nuisance is being rampant in some of the towns of the State by the enactment of an ordinance requiring those who distribute them to take out licenses. This is a pretty good plan. As it is now it is difficult to find out oftentimes who has committed the nuisance.

If each person who distributes handbills were required to take out a license it should be easy to ascertain who is responsible for the numerous bills which litter the streets and scare horses.

The Council of Fayette City has passed an ordinance providing for a penalty of \$5 for any one who distributes handbills in that borough hereafter without securing a license. The authorities there hope to eliminate the promiscuous throwing of bills entirely by this new regulation.

Washington needs an ordinance of this kind. The handbill nuisance flourishes here and it should be abated.

A better plan would be to pass an ordinance forbidding the practice altogether or regulating it in such a manner as to prevent the littering of the streets and yards with this advertising literature of doubtful value.

All things considered, newspaper advertising is the best and cheapest, and it makes less waste paper.

The moral is obvious.

The beauties of the autumn leaf do not appeal to the small boy who has been elected to sweep the sidewalk.

The Central Bank suggestion promises to fill a long-felt want in the Democratic party by furnishing it with an other financial issue. The very name stirs the Jacksonian spirit of opposition.

Morgantown is so quiet that the Salvation Army drum disturbs her calm repose.

"Do thou pure as ice and chaste as snow, thou shalt not escape calumnies!" exclaimed the man with a lazy liver.

The baseball agony is over, but the shooting isn't.

Tar-and-feathers is the customary punishment for persons unrespectably vile, not for divinity students.

Children should not be sent to drug stores for carbolic acid, and druggists should not fill orders for such a dangerous drug as carried in boxes by infants. The danger is too great.

The train-wreckers have established headquarters at Wheeling. Wheeling should repudiate the delicate compliment.

The Spanish Cortes indulged in a tough house opening.

The Presbyterian town of Pittsburgh has been in the embrace of the Christians during the past week, and like good people the citizens liked it.

The police are a trifle behind in changing the style of their headgear, but they are doubtless more for efficiency than style.

The quarterly jail exodus has exuded.

Remember the Connelville Exposition this evening.

The man who bet his hair on the ball game and lost is now occupying a seat in the front row at the vaudeville.

Big car orders follow the big rail orders. The railroads are evidently getting ready for big business, but there is reason to think that they should have been in a bigger hurry.

Bankrupt iron mills are discharging their receivers and employing workmen.

The explanation of the railroads concerning the variance in the freight rates on furnace and foundry coke is more ingenious than convincing. There is a suspicion that the railroads charge more for foundry coke just because they can.

Brownsville for Snee Hollowers.

The proposal has been made by one of our leading citizens that the two boroughs sanction a Halloween parade and thus draw the small boy and the mischievously inclined youth into the street that evening, diverting their attention from the foolish pranks that cause so much loss and annoyance to property owners.

The Clipper-Monitor believes this to be an excellent suggestion. The upsetting of outcrops, the carrying away of stumps, and the blocking of sidewalks and streets, and even the putting of cows on the roofs of barns, etc., having ceased to be funny. Persons of such alleged jokes are simply disorderly persons who should be arrested and fined.

By these means let us have the parade. We understand that arrangements for being made to hire a band and that prizes will be offered for the funniest costumes.

Let joy be unconfined, but let it be the sort of joy that will cause no loss or annoyance to anyone.

Yet South Connelville Notice.

Southside Independent.

The name of New Haven, Fayette county, has disappeared from everything with which it was formerly connected and the town, once known by that name is now a part of Connelville. It was a mistake when the two towns constituted and the smaller town is getting as much, if not more, good from the union than the larger town.

THE REASON OF THE TAFT SMILE.  
The President—You don't know how pleased I am to meet you every-where I go through the West and South.

## WASHINGTON CORRESPONDENCE.

United Press Special.  
WASHINGTON, Oct. 12.—There is a lot more involved in a change in the office of Treasurer of the United States than in the mere acceptance of the resignation of the retiring officer and the appointment of his successor. When President Taft accepted the resignation of Charles H. Treat, whose name appears in the bottom right-hand corner of United States bills, and announced that Leo McClung would succeed him on November 1st, it was equivalent to giving notice to all the clerks in the office of the Treasurer that they had three months' extra hard work ahead of them.

This comes from the fact that before a new Treasurer of the United States takes charge of the office he has to be satisfied that all the money and trust funds held in the Treasury Department are there down to the very last fraction of a cent. Consequently, every dollar and every cent in the treasury have got to be counted.

When the last change was made in this office it took all of the clerks, 20 additional laborers specially hired for the occasion; a committee of three appointed by the Secretary, with 10 or 15 specially designated assistants from other offices of the department, just two months and 18 days to do this work. The aggregate of the various funds and accounts which are held in the office of the Treasurer is \$744,438,353.91. This is not so very surprising when it is realized that the aggregate amount of money and securities which are held in the office of the Treasurer is \$744,438,353.91. ### EXPECT RESULTS FROM MEETING.

Taft-Diaz Conference Not  
Without Signifi-  
cance.

### IT MEANS MUCH TO MEXICO

With a National Election in the Near  
Future, President Diaz Believes His  
Position Is Strengthened—President  
Taft Saw Good Results.

San Antonio, Tex., Oct. 18.—Both the Mexican and the United States governments expect important results from the Taft-Diaz meeting at El Paso. President Diaz eagerly accepted the opportunity as a means of strengthening his administration against possible revolutionary movements and President Taft saw in the international program a means of further safeguarding the vast interests of the United States in Mexico. Aside from the personal element these are the motives that prompted the exchange of courtesies on the border.

President Diaz has a national election coming on. He will attempt to re-elect Corral as vice president. Diaz is seventy-nine years old and is anxious to have a man of his own choice to take up the reins of government when he is obliged to lay them down. General Reyes will contest Corral's election. Reyes has been stirring up an anti-American sentiment in the country and has been apparently hoping to ride to victory on it. "Mexico for the Mexicans," has been his cry when opposing the further investment of American capital in the country. The Reyes movement has been gathering force recently. Through the meeting and the frank

## The House Behind the Advertisement

—The people of Western Pennsylvania have learned  
that what "Aaron says" is invariably true.

—What a splendid asset for a business house to carry  
from year to year.

—It does away with all worry and doubt, and fear  
that harass one as a rule when buying furniture,  
carpets, rugs or household goods of whatever descrip-  
tion.

—Every word we utter in an advertisement is a di-  
rect and binding contract with the person who reads  
it.

—You may call upon us for fulfillment at any hour of  
a year, any day of any month, any month in any  
year.

—That's our foundation.

—That's the "Aaron way."

—The law, unfortunately, places little or no restric-  
tion on advertisements. Some day it will.

—Until that day you will always have to consider  
the house behind the advertisement that you read,  
rather than the advertisement itself.

—Do this and you will save yourself many a vain  
regret.

Sincerely yours,

### MEXICAN SUSPECT

Had a Novel Weapon Seeking Admis-  
sion to Taft-Diaz Banquet.

San Antonio, Tex., Oct. 18.—It was learned after President Taft left El Paso that the Mexican secret service men, two days before the meeting of the presidents, had arrested a young man who had represented himself to be a reporter and had applied for admission to President Diaz's banquet in Mr. Taft's honor at Ciudad Juarez.

The young man was a Mexican. The Mexican secret service agents did not like his appearance and searched him. In one pocket they found an automatic revolver, the barrel of which was shaped like a lead pencil. In it were seven cartridges.

The Mexican police officials said that the peculiar revolver apparently had been made to order. It would have been easily possible, they added, for anyone to have mistaken it for a pencil when the hand was closed over the butt. The Mexican was held.

### "SAVE YOUR MONEY"

This is John D.'s Advice to Boys of  
His Sunday School.

Cleveland, Oct. 18.—"Save your money, don't spend it on unnecessary things," is the advice of the Standard Oil king, who spoke to the boys of his Sunday school.

"It is a fine thing to have money to be able to do things for someone else," said Mr. Rockefeller; "that is the purpose we were made for. The highest service we can render God is to do something for the ignorant, the poor and those in trouble. If everyone did as much as he could for others, we would have a regular heaven on earth."

To catch and reflect the light, cut-glass must be spotlessly clean and transparent. Soap and water will not do the trick, which is hard to remove; the following method of washing will, however, leave the glass as clear as crystal.

It is best to use a wooden tub for washing cut glass, but if one is not at hand, and the metal dish with a few pieces of cotton, wash the glass in a warm solution, made by dissolving a teaspoonful of Gold Dust washing powder in a pan of warm water, use a soft brush to clean the surface, then rinse in water of the same temperature. ## LOCAL HIGH SCHOOL BOYS WALK AWAY WITH UNIONTOWN.

After First Few Minutes of Play There is Nothing to it but Youngsters From Here.

### WERE GREATLY OUEWEIGHED

Class Told, However, for Uniontown Team Lacked Training, Fumbled Often and Had a Line as Weak as Paper—Great Joy Follows Game.

Were there great gods of joy among the High School enthusiasts Saturday night? There were. The occasion was the annual football game given Uniontown on the football field. The score was 12 to 0, with the eleven warriors from the County Seat holding the goose egg.

It was a great victory, all the more so because defeat would not have come as a surprise. It was not weight that won, but desperate, gritty, plucky playing that overcame all opposition and recognized no handicaps. The team under Captain Ralph Marshall was outplayed for the first few minutes of the first half. Then it found itself and a different story was told.

In the first half, after brilliant use had been made of the forward pass, Soisson was pulled over the goal line for the first touchdown. He later kicked goal. In the second half Fosselman went over for another tally, and Soisson repeated with another goal. This was all the scoring. Uniontown almost scored, when Cook broke through the Conneltsville line, only to be pulled down by a brilliant tackle by Moser.

The entire Conneltsville team played great football. McDuffett, at left end, was all over the field and made more brilliant tackles than it is possible to keep track of. McCormick shone on the other end, Moser at quarter, Scott at full and Soisson and Fosselman on the halves. The game went through without a substitution.

The locals protested Hook and Culver on the grounds that they are eight grade pupils. The protest did not get. The faculty here will not permit the use of grade pupils on High School teams. Otherwise that work hole at quarter would have been filled long ago. As it is, Moser is making good in the position and will likely be retained there permanently. He is by far the best man that has been tried in that position. The score: CONNELLSVILLE, UNIONTOWN.

### JOHNSON BEATS KETCHEL

Colored Champion Fute White Man Away in Twelfth Round. San Francisco, Oct. 18.—Jack Johnson retained the heavyweight pugilistic championship by knocking out Stanley Ketchel in the twelfth round. The end came so suddenly that when Ketchel rolled to the floor and Referee Welsh counted him out the 10,000 persons crowding the arena were absolutely quiet for a full minute. Even Johnson, who leaned against the ropes half faced by his own fall a moment before, did not seem to know what had happened.

The climax of the fight was crowded into thirty-four seconds. At the beginning of what proved to be the last round there had been little in preceding rounds on which to forecast the winner. The men in the center of the ring clinched and wrestled to Johnson's corner. The negro broke away and, posing himself, dashed at Ketchel who sprang to meet him. Ketchel drove his right at the black's lowered head, Johnson ducked and the blow landed behind his ear. He stumbled, fell and stretched out on the floor, landing heavily.

Johnson's Victory Ties Up Traffic. Memphis, Tenn., Oct. 18.—Jack Johnson has tied up traffic on the Mississippi river in this section. Big steamboats are docked at several ports owing to scarcity of labor with which to supply a crew and river men blame Johnson's victory over Ketchel for prearranging conditions.

### BIG NIGHT IN PITTSBURGH

World's Champion Ball Team Will Be Officially Welcomed. Pittsburgh, Oct. 18.—The victorious Pirates will be officially welcomed home tonight. Escorted by military and civic bodies the world's champions will be taken to Forbes Field, where Mayor William A. Magee will present the twenty-three players with their share of the receipts of the ball game. A check for something over \$1,500 will be handed to each team. In addition, some handsome individual testimonials will be given. The parade will start downtown and

march to Forbes Field. There the prize money and individual testimonials will be distributed. Mayor Magee and others will make speeches. The celebration will close with a magnificent display of fireworks.

Adams' Pitching Does It. The seventh and deciding game for the world's championship, played at Detroit, was won by Pittsburgh, 3 to 0. The fine pitching of "Dabe" Adams, Pittsburgh's phenomenal young twirler, held the heavy hitting Tigers safe, making three victories for Adams during the series. Score: R H E Pittsburgh..... 020203010—3 9 0 Detroit..... 000000000—0 6 2 Adams and Gibson; Donovan, Mullin and Schmidt.

What's the Secret? Asks Taft. San Antonio, Tex., Oct. 18.—One of the first things that President Taft inquired about when the newspapers were put on his train was the result of the world's championship baseball fight. When he heard that Pittsburgh had won he wanted to know all the details and was greatly interested. The president, in his capacity as a fan, watched the Pittsburgh play in the Snacky city last summer.

### AUTO HITS TREE.

Society Leader of Tuxedo, N. Y., Is Hurled to Death.

New York, Oct. 18.—Mrs. Bruce Price, widow of a former well known architect and a leader of the Tuxedo colony, was killed and Mrs. Charles J. Coulter, also of Tuxedo, was injured in an automobile accident on the public road from Arden to Tuxedo on the Harriman estate. With Mrs. Price and Mrs. Coulter in the car was the latter's twelve-year-old son Charles. He escaped with a few scratches and bruises. Mrs. Coulter's chauffeur, John Scully, had two ribs broken.

Nearly in front of the manager's house on the Harriman estate the Coulter car came upon another automobile going in the same direction and suddenly turned out to pass this car. As he did so he applied the brakes and the machine skidded toward the edge of the roadway. The front of the automobile struck the three Price's and with considerable force. Mrs. Price was thrown over the front seat and against the tree, the machine in its overturning crushing her body against the tree. Mrs. Coulter was pinned beneath the machine. Her son fell upon her, but in such a position that there was little of the weight of the machine upon him.

### BLOW-OUT AT SAN FRANCISCO

Rebuilding of City Will Be Celebrated For Five Days.

San Francisco, Oct. 18.—Beginning tomorrow and continuing for five days San Francisco will celebrate with the Portola festival the rebuilding of the city and will commemorate the discovery in 1780 of the bay of San Francisco by Don Gaspar de Portola, first Spanish governor of California. The details of the program for five days of music and revelry have been completed. Hundreds of artisans are here and there putting the finishing touches to the decorations and illuminations. San Francisco will be in gala attire as never before. By night it will blaze with 2,000,000 lights of 30,000,000 candle power. By day it will be a bower of red and yellow, and a flutter with millions of flags, streamers and pennants. A score of vessels will represent the United States. When at anchor the great international armada will stretch for miles along the harbor front.

### DEMONSTRATIONS CONTINUE

Ferre's Execution Denounced by London Sympathizers.

London, Oct. 18.—The first public Ferrer demonstration in England filled Trafalgar square with a crowd numbering many thousands. A large proportion were onlookers, but the genuine manifestants made a big muster. They included many Germans, Frenchmen, Italians and Spaniards. The speeches were very violent and afterward there was an exciting row, which, however, did not have any very serious consequences. James O'Grady and Albert Grayson, both members of parliament, and H. M. Hyndman and Cunningham Graham spoke to a resolution denouncing the murder of one of Spain's most eminent and most useful citizens, expressing detestation of the torturing Jesuits, who, with their militarist allies, were reviving the Inquisition in Spain and demanding that Great Britain urgently press Spain to abolish court-martial.

terribly injured. But May Live. Sharon, Pa., Oct. 18.—Despite the fact that eighteen pieces of bone were removed from his head, Martin Jones, fifty years old, may live. He was struck in the head by a chain in a coal mine, a hole two inches in diameter being inflicted.

Baptist Meet. East Liverpool, O., Oct. 18.—The eighty-fourth annual convention of the Baptist church of Ohio convened at Martin's Ferry today.

### SENT FOR UNDERTAKER FIRST

Guest at Philadelphia Hotel Then Shoots Himself.

Philadelphia, Oct. 18.—After mailing a letter to a local undertaker directing him to "come and find my body in room 21," a man, who registered at a prominent Chestnut street hotel as Charles A. Gafney of Boston, went to his room and committed suicide by shooting himself in the head.

An envelope was found containing a note and \$34 to cover funeral expenses and hotel bill, and \$5 which was directed to be given to a chambermaid. The man appeared at the undertaking establishment earlier in the day to arrange for the funeral of a "dear friend," stipulating that the body was to be cremated.

She has been married four times and is now the wife of a man who is reported to be worth \$75,000 in New York city. Her third husband committed suicide in New York.
